Residential Small Firm: Large New Construction (Over 3,500 Sq Ft)

Karen Black Interiors

Karen Black

This 4,188 square foot new construction home was designed for two busy professionals who love to entertain. Every inch of the compact lot was maximized, with the kitchen opening to a spacious veranda through expansive sliding doors, blending indoor-outdoor living. Unlacquered brass accents and vivid quartzite countertops set a sophisticated tone, inspiring a layered palette of blues, greens, and warm neutrals. Natural limestone floors add old-world texture, balanced by clean lines and custom millwork. High ceilings, bespoke drapery, and curated art reflect refined livability. The primary suite serves as a serene retreat with steam shower, air-jetted tub, and hand-painted mural cabinetry. This home seamlessly marries classic materials with contemporary detailing, offering a timeless, high-functioning space rooted in elegance and intention.
